

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-11 (canceled)

Claim 12 (previously presented) A method for transmitting a message to a recipient, the recipient associated with at least one identifier, the identifier is associated with at least one communication device, comprising:

- receiving a message;
- receiving a recipient identifier for said message, the recipient alias associated with at least one communication device;
- verifying that the recipient identifier is available to the system;
- verifying that the sender has permission to send a message to the identifier by referring to the permission associated with the identifier;
- transmitting the message to at least one communication device associated with the identifier;
- retrieving a maximum message length for a communication device associated with the identifier;
- determining the message length of the received message;
- comparing the message length of the received message to the maximum message length; and
- modifying the transmission of the message when the message length of the received message exceeds the maximum message length by sending the message in more than one transmission.

Claim 13-14 (canceled)

Claim 15 (previously presented) A method for transmitting a message to a recipient, the recipient associated with at least one identifier, the identifier is associated with at least one communication device, comprising:

receiving a message;  
receiving a recipient identifier for said message, the recipient alias associated with at least one communication device;  
verifying that the recipient identifier is available to the system;  
verifying that the sender has permission to send a message to the identifier by referring to the permission associated with the identifier;  
transmitting the message to at least one communication device associated with the identifier;  
retrieving a maximum message length for a communication device associated with the identifier;  
determining the message length of the received message;  
comparing the message length of the received message to the maximum message length; and  
modifying the transmission of the message when the message length of the received message exceeds the maximum message length by sending a concatenated message.

Claim 16 (previously presented) A method for transmitting a message to a recipient, the recipient associated with at least one identifier, the identifier is associated with at least one communication device, comprising:

receiving a message;  
receiving a recipient identifier for said message, the recipient alias associated with at least one communication device;  
verifying that the recipient identifier is available to the system;  
verifying that the sender has permission to send a message to the identifier by referring to the permission associated with the identifier;  
transmitting the message to at least one communication device associated with the identifier;  
retrieving a maximum message length for a communication device associated with the identifier;  
determining the message length of the received message;

Application No. 09/610,402  
Amendment dated June 10, 2005  
Responsive to Election/Restriction Requirement dated February 8, 2005

comparing the message length of the received message to the maximum message length; and  
modifying the transmission of the message when the message length of the received message exceeds the maximum message length by sending a concatenated message and adding a header to the message.

Claims 17-32 (Canceled)
